

Brazil

Print and label this map or label an electronic version.

Submit your final map to Canvas.

For an extending mark use color and label all the requirements correctly.

1. Find the country of Brazil on the map below and outline it with a thick black line.
2. Look up, locate, and label on the correct spot on the map the capital city of Brazil.
3. There are 2 rivers in Brazil that are shown on the map below. Label the Amazon and Paraná Rivers.
4. There are many “tributaries “ that flow into the Amazon River that are not shown on the map below. Research 2 other rivers that flow into the Amazon and draw blue lines and label them by name.
5. Label the Atlantic and Pacific Oceans.
6. Draw a line to represent the equator at 0° latitude. Label it “equator”.
7. The Amazon Basin covers more than 2 million square miles in the countries northern and western areas. Shade this area a light green color.
8. To the southeast of the Amazon Basin are the Brazilian Highlands. Shade this area yellow.
9. Find and label with a dot and by name the cities of Río de Janeiro and São Paulo.
10. Label 10 of the surrounding South America countries pictured on the map.
